HIGH PRECISION

LSQ minimum division to .01 lb on 40 lbs capacity.

ETHERNET CONNECTION

SCALETNET software included for its configuration from a computer.

An unlimited number of LSQ scales can be installed into a local red.

Sales can be controlled for each scale or group of scales.

EASY-TO-CHANGE CARTRIDGE

The easy-to-change cartridge and its larger label roll capacity (1,500 labels per roll) expedites customer service and reduces downtime by having always a spare cartridge to preload it at non-busy times.

PRINTING FORMAT SELECTOR

Printing format selector permits to change easily from one printing format to another making this operation quick and easy.

SECURITY KEY CONTROL

Its security system avoids the modification of the program by any unauthorized person. The access is limited in two security levels. First, the supervisor level which, through password, is able to give discounts, to make returns, to add new products, etc; Second the Manager level, which only can be accessed by the security key and a password.

In this mode you are able to modify the general configuration of the scale, such as password, labels, reports, lists, price, etc.

PROGRAM SCROLLING PROMOTIONAL

Two Sided LCD display for customer and operator view, increase buyer confidence, simplify operations and reduces mistakes.

Easy-to-read display indicate weight and prices, and scroll promotional messages.

USER-FRIENDLY KEYBOARD

The user-friendly keyboard design requires no complicated training of in-store personnel. It features 72 direct access memory keys for quick access to fast moving products and up to 10,000 memory keys ensure all products sold are labeled and not under nor overpriced and eliminates pricing errors during checkout.
